**Re: In The Matter of Reliable Power Alternatives Corp. For A Certificate to Broker Electric Supply Services within the State Of Delaware (Submitted February 23, 2018) - PSC Docket No: 18-0131**

---

Dear Mr. Martorella,

On February 23, 2018, Reliable Power Alternatives Corp. ("Reliable Power" or the "Company") submitted an application ("Application") with Delaware Public Service Commission (the "Commission") for an Electric Supplier Certificate ("ESC") to act as a Broker in the State of Delaware pursuant to §1012 of the Electric Utility Restructuring Act of 1999, 26 *Del. C.* §1001 - §1020 (the "Restructuring Act") and 26 *Del. Admin. C.* §3001, the Commission's Rules for Certification and Regulation of Electric Suppliers (the "Supplier Rules").<sup>1</sup>

In a letter dated March 2, 2018, Staff forwarded Reliable Power a list of deficiencies that required additional documentation in order to fulfill the minimum filing requirements ("MFRs") in accordance with Section 2.0 of the Supplier Rules. A response date of April 2, 2018 was requested by Staff. Staff communicated with representatives of the Company from March 6<sup>th</sup>-March 13<sup>th</sup> regarding the filing of subsequent documentation in the DelaFile system. By April 2, 2018, a response to Staff's deficiency letter had not been received. In a letter dated April 20, 2018, a second notice of deficiency was forwarded to the Company in an effort to satisfy the MFRs. A response date of May 18, 2018 was requested by Staff. Again, a response from the Company was not received by the requested date. In a letter dated May 21, 2018, Staff sent a final deficiency letter to the Company in an attempt to satisfy the MFRs for this Application. The Company was notified that the Application would be considered abandoned as of June 23, 2018. A representative of the Company contacted Staff on May 25, 2018 via email regarding the status of the Application. Staff notified the Company that a final notice of deficiency had been mailed to the Company. Staff also noted that the Application would be closed on June 23, 2018 if the MFRs had not been satisfied. The final notice of deficiency was sent electronically to the representative.

At this time, the Company's application as submitted February 23, 2018 has not satisfied the minimum filing requirements under the Restructuring Act and Supplier Rules to receive an ESC in the state of

<sup>1</sup> Unless otherwise noted, all references to capitalized terms are set forth in the Restructuring Act and/or the Supplier Rules.

Delaware. The Application is incomplete as of June 23, 2018 and the Company has not made any attempts to satisfy the requirements of the Supplier Rules. Section 2.8 of the Supplier Rules provides that incomplete applications will be closed four months after the filing date. In accordance with the Supplier Rules, the above referenced docket is now closed and the incomplete Application of Reliable Power Alternatives Corp. for an ESC is considered abandoned. Should the Company decide to pursue an ESC in the future, a new filing and filing fee would be required.

Thank you,
